# ArcGIS PRO: Summer Workshop Series

**Thursdays**  
June 21 and 28, 2018  
Morgan Library 174

Learn the essentials of ArcGIS Pro, in four different half-day workshops. Attend one or many: Your choice!

Geared toward those who have some familiarity with GIS and ArcMap, but all are welcome.

Session Descriptions

1. Get Started with ArcGIS Pro

Learn the new structure of ArcGIS Pro, licensing, and navigating the new interface. This session is geared toward those who have never used ArcGIS Pro.

2. Spatial Analysis

Learn how to prepare data and solve spatial problems in ArcGIS Pro. Tasks will include making selections, basic geoprocessing, the new in-depth raster analysis tools, ModelBuilder, and utilizing the various cloud-based geoprocessing services. This session is for those who have had some introduction to ArcGIS Pro.

3. Cartography and Map Layouts

This session focuses on the new cartography and symbolization options, as well as making map layouts (including multiple layouts within one project!) Geared toward those who have had some introduction to ArcGIS Pro.

4. 3D Visualization

3D visualization and analysis has been tightly integrated into ArcGIS Pro. This session will discuss the 3D capabilities and functionality new to ArcGIS Pro. Geared toward those who have had some introduction to ArcGIS Pro.
